**Sent:** 11/2/01 6:23 PM

**Importance:** Normal

Ari,

Attached please find a first draft application (18 pages, including claims and abstract) and drawings (6 additional pages, figures 1-9) for the above referenced matter. Please have the inventors review the application and provide their comments/changes to us.

Due to the combination of various inventions referred to in this case, please confirm who the named inventors should be. This is most easily accomplished by reviewing the claims and writing an inventor's name next to any claim which he originally conceived at least part of. Any individual with his/her name written next to at least one claim should be listed as an inventor.

As this application has a file-by date of November 20, we look forward to receiving comments by November 12 so that we can prepare a revised draft and return it to you for the inventors' signatures. Please let me know if you have any questions.

Regards,

Ross
